Artist journal page

Teesha Moore and Sarah Fishburn are both Journal artists. They produce their work using a mixed media approach. They convey messages and record their every day life in their journals. Read through the links on the previous slides. Look at the two different styles. You are to produce a journal page that records a day in your life during the Lock Down (no smaller than A4) using a mixed media approach. When adding text consider how the two journal artists do this. They use cut out lettering, hand written lettering and typed lettering, together with images. Use any materials that you have at home.
