

Music Department

Home Learning Year 7

Over the next few weeks you will be studying the Instruments of the Orchestra and famous composers. This is a topic that we would study in the last term at school and we have adapted it to be worked on from home. There will also be a creative / practical element at the end of the project.

This week focusses on the basics of the Orchestra, the Woodwind Section and the composer of the Classical period Mozart. In google drive you will find a google slides powerpoint explaining the work. There is then a piece of work to complete in google docs to show your understanding of the work.

Please complete the google doc and hand in. Any problems please contact us on google classroom or via email.

Thanks

Mr Poole and Mr Cornish
