

Year 9
Remote Learning Planner
Week 2 - 14th September 2020

Welcome back to Music Year 9.

I hope you have all had a fantastic holiday and you are ready to learn GCSE Music with us at Little Lever once more.

This weeks remote learning has been set on google classroom. Ton access your new GCSE Music google classroom the code is - **665y6ot**

Please watch the video I have prepared on google classroom which introduces the work for the first two weeks.

For the first piece of remote learning I have one google form for you to complete. The purpose of this is for you to tell me about your current musical knowledge and also whether you currently play an instrument, used to play an instrument or want to learn how to play an instrument. It also asks you which instrument you want to play for GCSE.

Please do not worry if you find the knowledge checker difficult (or too easy), it gives me an idea of what musical knowledge you already have so i know what to cover over the next three years. It is vital that you answer each question honestly and only click an answer if you are reasonably sure it is correct, if not please click 'I don't know'.

THIS IS NOT A TEST AND DOES NOT COUNT TOWARDS ANY GRADES!

If you have any queries then please comment on this stream below or send me an email to rpo@litle-lever.bolton.sch.uk.

The assignment has been scheduled to go active on either the week of your remote learning (if to be completed at home) or the day of your in school music lesson. This is to avoid anyone accidentally completing the in school work remotely.

Thanks

Mr Poole
